Additional Academic Supports

In addition to Tutoring Services, CDLI has a wealth of Senior High Course Review material on our website that all NL students can avail of **free of charge**. CDLI has review materials to assist students writing final or supplementary public exams in the following courses :

Academic Mathematics 1201
Academic Mathematics 2201
Academic Mathematics 3201
Advanced Mathematics 2200
Advanced Mathematics 3200
Advanced Mathematics 3208
Applied Mathematics 3202
Biology 3201
Chemistry 3202
Earth Systems 3209
Physics 3204
World Geography 3202
World History 3201

To access the review material for these courses, you will need a CDLI account. Visit our website www.cdli.ca and click on the Sign Up button on the top right-hand corner of the page.

We have created a step-by-step tutorial video on how to access Course Review Materials at

https://www.cdli.ca/senior-high-course-review-materials.html

Additional Academic Supports

Resources are organized into five categories: **Course Content, Intermediate Learning Content, Multimedia Learning Objects, Public Exam and Final Exam Reviews.**

The **Course Content** provides access to the course materials that CDLI educators use to teach their courses. This content is broken down by Unit and Intended Learning Outcome (ILO). The ILOs are the specific items that are covered in the courses.

The **Intermediate Learning Content** contains a series of recorded Multimedia Mathematics Tutorials covering a range of topics. The intermediate Learning Content area also contains support materials for the grade eight and nine Technology Education program.

The **Multimedia Learning Objects** are a series of recorded Multimedia resources that review concepts in selected 2000 and 3000 level senior high courses. There is also a series of Mathematics Tutorials reviewing a range of topics.

The **Public and Final Exam Reviews** are a series of recorded items which review constructed and selected response questions from previous Public. The reviewer explains in detail the approach used to answer a specific type of question, dealing with how to read a question and details to look for, and finally completing the solution for the student.

All NL students can access this material by creating a CDLI account and visiting our webpage at https://www.cdli.ca/learning-content/

CDLI Tutoring Services

CDLI is proud to offer academic support to **all** students of Newfoundland and Labrador throughout the school year in the form of **free tutoring services** that are available both in-school and online**.** We concurrently operate three tutoring programs which support students in reaching their full academic potential.

Tutoring for Tuition (TFT)

Tutors are post-secondary students who are pursuing undergraduate degrees in the fields they are tutoring. They work throughout the school year from October to June and their services are available on evenings and weekends through our website **www.cdli.ca/tutoring**

Tutoring for Work Experience Program (TWEP)

Tutors are post-secondary students who are pursuing undergraduate degrees in the fields they are tutoring. During the months of May and June, students work full-time during evenings and weekends. During final exams, tutors are also available during the day through our website at **www.cdli.ca/tutoring**

E-Tutors

A CDLI e-tutor is a present or former distance education student chosen by the m-team (School personnel responsible for CDLI) to help support e-learning in their school in a variety of ways, from assisting with CDLI equipment to providing regular subject specific tutoring. E-Tutors, like TFT tutors, work from October to May each year.

CDLI Tutoring programs are made possible by funding from the Department of Advanced Education, Skills & Labour.

Accessing Tutoring Services

Accessing tutoring services from CDLI is a quick and straight-forward process.

1. Visit our website at www.cdli.ca/tutoring

2. Click on the **Tutoring Daily Schedule** link. The schedule outlines the hours that our tutors will be available for subject listed.

3. Click on the subject name to enter the appropriate tutoring room or click on the **Launch Free Online Tutoring** link on the right side of the page to access the desired room.

Accessing Tutoring Services

What equipment do you need to get online?

A computer with *Blackboard Collaborate Launcher* installed. This software is available free of charge and can be downloaded directly from our webpage (above)

https://www.cdli.ca/tutoring/online-tutoring.html

How do I Login?

- Select the appropriate subject classroom

- Log In to Session: Enter your full name and then your community in brackets. Example. John Smith (Twillingate)

Need Assistance?

CDLI has an extensive Frequently Asked Questions (FAQ) page which provides step-by-step instructions to assist students who are having technical difficulty . It also provides information on our services for parents who wish to access additional academic support for their child.

https://www.cdli.ca/faq/

Students and parents may also contact CDLI Guidance Counsellor Janice Rowsell for additional support .
