November 27 7-9 pm Skype Session Join anywhere in the province via:

<https://meet.lync.com/nf-nlesd/richardsnow/GZFM6POH>

These sessions are for all parents, caregivers, and other youth allies. Parents of children in elementary school will also find the session’s meaningful.

It’s more important than ever for parents and caregivers to protect their kids’ health and development by having conversations about **Cannabis** early and often. **Cannabis** is the most commonly used illegal drug by young people aged 15-18, with Canadians of all ages among the world’s highest consumers of **cannabis**. This may lead to questions from your teen.

Join Eastern Health staff to learn more about cannabis, the new legislation, how to talk to your teen as well as resources and services available. These sessions will equip parents with the information needed to have open and honest conversations with their teenagers.

No Registration Required
